

**SireMatch<sup>2</sup>** is an easy-to-use mating tool that provides reliable mating advice focussed on your specific breeding goal, without the need for cow data. This tool is specifically designed for farmers who lack access to pedigree information about their herd.

**SIREMATCH<sup>2</sup>**  
Next level mating

Simply input your breeding preferences and goals and receive a selection of CRV sires that match your specific needs. This leads to noticeable improvements in the traits that matter most to you. That's next level mating!

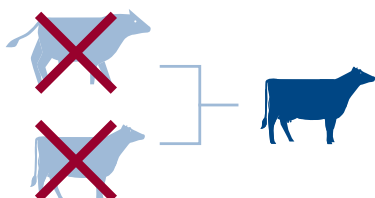

▶ International technology brought to you locally

▶ Uses stock available in Kenya

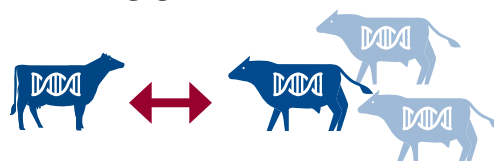

▶ No pedigree data needed

▶ For small and bigger herdsizes

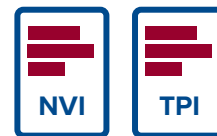

▶ Your personal breeding goal → CRV sire selection

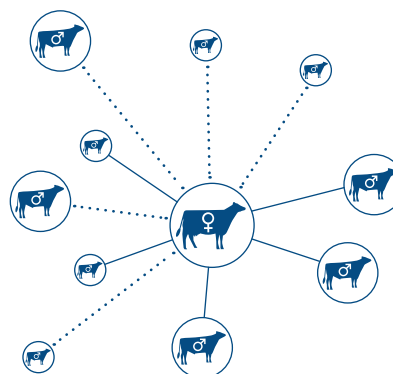

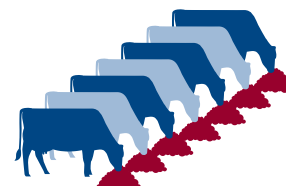

▶ Easy-to-use advice tool

▶ Available for Holstein on several bases

▶ Fastest way to breed for a FeedExcel herd

BETTER COWS > BETTER LIFE
