HUSAR Z VINIC AAB-021

Husar is very interesting bull not only for his excellent production but also for his pedigree.

His sire, Balmachie Rodger was imported to CZ from Scotland in 2018 at the age of 4 years and was scored with incredible 94 points at the final test. He became Champion and National winner at the angus show in 2018 in the category for older bulls. A year before that we became a Grand Champion bull at the prestigious Royal Highland Show in Scotland. Husar's dam mother Black Angel was also imported to CZ from Scotland from famous Rawburn farm and is a daughter of Rawburn Boss Hog. Husar is a bull with very good growth, perfect exterior and great character. His strengths are body length, muscularity and rib eye area.

CHARAKTER ZE LHENIC PP IIT-332

Homozygous polled Charakter ze Lhenic scored as a best Charolais bull in 2023. His dam is a first calvers Filipa P, daughter of French bull Frene V. Filipa is very dairy cow with very good exterior. The sire of Charakter is French AI bull Merlin P, whose offspring has already proved its quality in CZ. The have very easy calvings, growth and above average dairy.

Charakter was bred on a farm of Mr. Karban and already as a calf he was very exceptional. He proved his qualities at the final test in May 2023, where he got excellent score of 92 points for his exterior. He hardly has any weak points in his exterior or character. Another advantage of this bull his polledness and being a carrier of Q204X gene. Bull is also ataxia free.

HERRY Z CHOTĚBOŘE P IIT-256

Herry is a son of homozygous polled bull Ceintur ze Statku PP, who was born from French embryo at farm of Mr. Zuzanek (s. Hector P, d. Hoppolyte P)
The dam of Herry comes from Statek Doubravka Chotebor. She has above average BV for growth in direct effect.
Herry doesn't have too much genetic potential for dairyness but we believe he will be suitable for farms focusing on production of well growing and muscular animals, which will excel also in fattening.
Herry P is ataxia free bull and is heterozygous carrier of a gene for double muscularity Q204X.
The bull can be used on heifers.

CHÁN Z CUNKOVA PP IIL-209

Chán PP is homozygous polled limousine bull with excellent pedigree and production figures. His sire is German bull Mateo PP who has already more than 100 calves born in CZ. His dam is also homozygous polled cow with above average BV for dairyness. Chán PP is a bull of average frame, but he excels with above average muscularity and great growth. His breeding values predict easy calvings therefore he can be used also for heifers.

HERKULES Z JESTŘABÍ WAG-053

Wagyu breed well know especially to people who are looking for culinary experiences. Originally Japanese breed is now popular worldwide. Meat of Wagyu or the crossbred offspring is highly valuable and in demand because of its exceptional taste.

Hercules was born on a farm of Mrs. Ficbauer as a product of embryotransfer, his sire is a bull Itofuji already used in CZ. His is very interesting in terms of breeding values for growth in direct effect, his weight a tone year of age was 421 kg. He is also exceptional for his exterior and temperament. We believe that Hercules will be popular among all the farmers who are interested in production of high quality beef.
